MONEY MANAGEMENT MEETS TECHNICAL ANALYSIS

Crypto Currency

On **2021**, cryptocurrency capital market reach **more than 2 Trillion USD**. Many people believe that cryptocurrency will grow significantly in the future.

The basic thing that makes cryptocurrency price changing is **crypto trading**. Not like other financial assets that regulated by regulator, in crypto we will rely on basic trading principle which is **supply & demand**. Volatility in cryptocurrency is great, and it comes with many opportunity for traders

CRYPTO TRADING RUNS 24/7

there's no way human can do all the trading activity & analyze all cryptos persistently

24/7

PRECISION IS KEY

You need to know when you **buy** and **sell** and make it continuous activity to give you optimal profit

So how can we tackle all the pain points and everyone can get the profit from crypto trading?

CONSISTENCY

Don't make a decision based on your feeling

LACK OF KNOWLEDGE FOR BEGINNERS

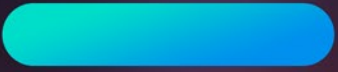

So you need to time to learn & sometimes it will costs your investment capital

Commodity Channel Index

Signal: The CCI value is under -100 and the 2 Candles are showing the increasing value

Exponential Moving Average

Signal: line of EMA Fast (blue) crossing the line of EMA Slow (yellow)

TRADE SETTINGS

NO	DESCRIPTION
1. Balancing	<p>On: The bot will do the balancing when the price is going down</p> <p>Off: The bot will not do the balancing, however if the price is going up and reach take profit ratio, bot will take profit automatically</p>
2. Entry Type	<p>Continuous: The bot will always continue monitor this coin to open position if technical indicator shows buy signal.</p> <p>One Shot: After taking profit, the bot will stop to monitor this coin</p>
3. Strategy Mode	<p>All: The bot will average all buying activity from initial buy to balancing activity (step 0,1 and so on)</p> <p>Partial: The bot will average all buying activity from initial buy to step 4. for the next step (5 and so on), the bot will treat as 1 position. it means the bot will calculate average price from initial buy to step 4.</p>
